Work Experience

Technical Solutions Engineer Epic Systems June 2021 - Present

- Understood a large legacy codebase (Mumps, C#, Javascript) in order to troubleshoot technical issues in real time for potential patient safety concerns
- Primary Patient Experience (MyChart) contact for 30 healthcare analysts across multiple healthcare organizations
- Proposed, Designed and Implemented improvements in internal tools through VB, SQL and Mumps based code that saved 30 hours from internal processes
- Facilitates communication between C-suite Executives, and Lead MyChart developers to solve complex technical issues

Math & Computer Science Tutor Varsity Tutors Aug. 2019 - June 2021

- Discerned gaps in Students knowledge to explain complex technical concepts in upper level Math and Computer Science courses appropriately
- Maintained a 4.9 star rating with over 50 total clients

Mathematics Researcher Colorado College May 2019 - Aug. 2019

- Applied Combinatorial Game Theory the win positions of a Chess-like Game
- Deconstructed a board game into it's mathematical and computational components to form an efficient research team
- Lead the development of the integration of our insights in Combinatorial Game Theory in a Python based programming language

Campus Safety Driver Colorado College Sep. 2017 - Aug. 2019

- Ensured safety of peers by providing a safe method of transportation late at night
- Exercised judgement about whether students demand professional medical attention

Education

Colorado Springs, CO Colorado College August 2016 - May 2020

- Bachelor of Arts in Mathematics
- GPA: 3.36
- Coursework: Python, Linear Algebra, Graph Theory, Number Theory

Projects

Job Titles in Data Science

- Scraped 30,000 job listings, and published dataset on Github used by 75,000+ people
- Utilized Python and Network Analysis to group and report on Data Science skill sets

Abalone AI

- Implemented the board game Abalone in Python using the MVC design pattern
- Created and optimized an AI using the MiniMax Algorithm that can look 5 moves ahead

Skills

- Java, Python, Javascript/HTML/CSS, C#, VBA, Mumps
- Git/Github, SQL, LaTeX, Django, Wireshark, IIS
